ARUN KUMAR M

Java Full Stack Developer | Spring Boot Microservices Specialist

+91 7305238584 | m.arunkumarmar12@gmail.com | Chennai, India | linkedin.com/in/arun-kumar-m-65b718219

Professional Overview

Java Full Stack Developer with 3+ years of experience in the **banking domain**, delivering secure, high-performance **Spring Boot microservices** and responsive **Angular** applications for a private banking platform serving **1000+ concurrent users**. Proven impact: **40%** faster performance, **35%** quicker releases and **30%** lower infrastructure overhead. Strong in **RESTful APIs, Spring Security, JWT, idempotency, rate limiting and Jenkins CI/CD**, with working knowledge of **AWS, Docker and Kubernetes**. **A Band** performer for 3 consecutive years. **Immediate joiner.**

Technical Skills

- **Frontend:** Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, PrimeNG, Service Workers
- **Backend:** Java, Spring Boot, Microservices, Spring Security, Spring JPA, Spring Batch, JSF, PrimeFaces, Python (Flask)
- **API and Security:** REST APIs, API Design, JSON, Swagger/OpenAPI, JWT, OAuth2, RSA Encryption, Rate Limiting, Idempotency, CSRF and SQL Injection Remediation
- **Database:** MSSQL, MySQL
- **Tools and Deployment:** Jenkins CI/CD, Maven, NPM, Git, GitHub, Tomcat, SonarQube, Fortify, VisualVM, Eclipse MAT
- **Cloud and Containers:** AWS, Docker, Kubernetes
- **Practices:** Agile/Scrum, Code Reviews, UAT Deployments, TCS BaNCS, AI-assisted development (Copilot, ChatGPT)

Experience

Tata Consultancy Services (TCS) — Java Full Stack Developer *June 2023 – November 2026, Chennai*

- Engineered responsive **Angular** and **Spring Boot RESTful microservices** for a private banking platform that lets high-net-worth clients **trade securities, place orders, make payments** and view portfolios at **1000+ concurrent users**.
- Integrated **TCS BaNCS** core banking services with **MSSQL** for portfolio, holdings and order data, sustaining **99%** production uptime.
- Architected stateless, secure services with **Spring Security, idempotent APIs, rate limiting, caching and load balancing**, cutting infrastructure overhead by **30%**.
- Delivered an **advisor-to-client mail module** and an **admin module** (user management, client logs, frontend URL validation, application metrics), reducing support requests by **30%**.
- Boosted client-list performance by **40%** and cut DB connection usage by **35%** with **Service Worker caching** and **batch SQL processing**.
- Strengthened security by fixing a **CSRF/JWT bypass**, a **SQL injection** flaw and exposed client-side secret keys; implemented **RSA encryption** with dynamic seed/IV.
- Automated builds and releases with a **Jenkins CI/CD pipeline**, deploying microservice JARs as **Windows services** and Angular on **Tomcat**, cutting release time by **35%**.
- Led **UAT and production deployments** (**Maven, Apache Tomcat**) at a **99%** success rate and configured **Apache HTTP proxy** routing, cutting deployment time by **30%**.
- Diagnosed a **connection-pool deadlock** and memory issues with **VisualVM** and **Eclipse MAT**, reducing memory incidents by **30%**.
- Built reusable **Angular components** and refactored the **API Gateway**, cutting integration effort by **40%**, code by **20%** and clearing all **SonarQube** findings.
- Collaborated in **Agile** sprints, code reviews and technical discussions with cross-functional teams.

Projects

- **Payments & Trading Platform (Banking Domain)** — Developed secure **microservices-based** modules for **domestic & international payments** and **securities trading** using **Spring Boot**, ensuring **PCI compliance** and reducing **API latency by 25%**.
- **Funds Portfolio Viewer (Banking Domain)** — Built **scalable backend services** for **real-time portfolio analytics**, **statement generation** and **document management**, improving **data accessibility and user engagement by 20%**.

Education

B.E. Computer Science — Panimalar Engineering College, Chennai (GPA: 9.29 / 10) *2019 – 2023*

Notable Achievements

- **A Band** (highest performance rating) at TCS for 3 consecutive years.
- Team appreciation for demo, go-live and proactive monitoring; freelance trainer for 30+ students (80% placed).
